■ AI Executive Summary

Key trends and anomalies include: Server Uptime is at a healthy 99.17%, indicating a stable system. Sales Revenue and New Signups are both categorized as "Good", suggesting overall positive performance. However, Open Support Tickets are also categorized as "Good", which may be an anomaly given the relatively high number of 42 tickets, potentially indicating a need for improved support processes or training.

Metric	Value	Status
Sales Revenue	\$7,085	Good
New Signups	89	Good
Server Uptime	99.17%	Healthy
Open Support Tickets	42	Good
